MiFID II product governance / Retail investors, professional investors and ECPs – Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Products has led to the conclusion that: (i) the target market for the Products is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Products to retail clients are appropriate - investment advice, portfolio management and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Products (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Products (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

The Issuer has identified a number of factors which could materially adversely affect its business and ability to make payments due. These factors include:

Governing law: The Products will be governed by Luxembourg law and the rights thereunder will be construed accordingly.

Status of the Products: The Products constitute direct, unsecured and unsubordinated general obligations of the Issuer and rank equally among themselves and with all other direct unsecured and unsubordinated general obligations of the Issuer. The Products do not evidence deposits of the Issuer. The Products are not insured or guaranteed by any government or government agency.

Description of restrictions on free transferability of the Securities
The Products are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with applicable transfer restrictions with respect to the United States. No offers, sales, resales or deliveries of the Products may be made in or from any jurisdiction and/or to any individual or entity except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and/or Banque Internationale à Luxembourg (the "Lead Manager").
Subject to the above, the Products will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Products to be admitted to trading on the multilateral trading facility EuroTLX (managed by Borsa Italiana S.p.A.) with effect from (on or around) the Issue Date.
The Issuer and the Lead Manager do not assume any legal obligation in respect of the realisation of admission to trading as of any particular date or the maintenance of any admission to trading that is realised.

What are the key risks that are specific to the Securities?

The Products are subject to the following key risks:

- ***Investors in the Products may lose up to the entire value of their investment in the Products, depending on the performance of the Underlying(s).***

- ***Risks relating to certain features of the Products***:
  - Investors will be exposed to the performance of the underlying which has the worst performance, rather than the basket as a whole. This means that, regardless of how the other Underlyings perform, if the worst performing underlying in the basket fails to meet a relevant threshold or barrier for the payment of any interest or for the calculation of any redemption amount, investors might receive no return on their initial investment and they could lose some or all of their investment.
  - The coupon amount will only be paid if the level, price or other applicable value of the Underlying(s) on the relevant valuation date(s) either reaches or crosses one or more specific barrier(s). It is possible that such level, price or other applicable value of the Underlying(s) on the relevant valuation date(s) will not either reach or cross the barrier(s) (as applicable), and therefore, no coupon will be payable on the relevant coupon payment date. This means that the amount of coupon payable to an investor over the term of the Products will vary and may be zero.
  - The payment of coupon amount will be conditional on the value or performance of the Underlying(s). The coupon amount payable will be zero on a coupon payment date if the Underlying(s) do not perform in accordance with the terms of the Products although such payment will be deferred to the next coupon payment date. If the Underlying(s) meet the performance criteria, the coupon payable will be an amount for the current coupon payment date plus any amounts deferred from previous coupon payment dates where coupon was not paid. Investors will not be paid any coupon or other allowance for the deferred payments of coupon and it is possible that the Underlying(s) never meet the performance criteria, meaning that investors will not receive any coupon at all for the lifetime of the Products.
- ***Risks relating to the Underlying(s)***:
  - Past performance of the Underlying(s) is not indicative of future performance, and performance may be subject to unpredictable change over time;
  - Investors will not have any legal or beneficial rights of ownership in the Underlyings, and no claim against the index sponsor, the administrator or any other third party in relation to the Underlyings; such parties have no obligation to act in investors' interests.
  - The market value of and the return on the Products depends on the performance of the Underlyings and its components and other macroeconomic factors. The index sponsor (and the Issuer of the Products) may be subject to regulatory changes regarding the publication and use of the Underlying(s) during the life of the Products which may negatively impact the performance of the Underlying(s). The Issuer and/or the Calculation Agent may adjust the terms of the Products in respect of the Underlying(s) referenced in order to comply with statutory requirements and such adjustments may affect the value and of return on the Products and may even result in the early redemption of the Products (the early redemption amount of which may be less than the initial investment amount or zero).
  - The performance of the Underlying(s) is affected by macroeconomic factors which may adversely affect the performance of the Underlying(s) and the value and return on the Products. Furthermore, the return on the Products may not reflect the return that would have been achieved with a direct investment in the underlying fund units or assets of the Underlying(s). Additionally, a change in the composition or discontinuance of the Underlying(s) could significantly affect the market value of and return on the Products. Investors in the Products will also be exposed to factors including, but not limited to, the market price per interest in the Underlying(s) being higher or lower than the net asset value of the Underlying(s), the pro rata share of fees associated with the Underlying(s), any delay, suspension or inaccuracy in the calculation and publication of the net asset value, and the investment strategy of the Underlying(s),which may affect the value and return on the Products.
- ***No or limited liquidity:*** The Products may have no liquidity or the market for such Products may be limited and this may adversely impact their value or the ability of the Investor to dispose of them.
- ***Secondary market price:*** The market price of the Products prior to maturity may be significantly lower than their original purchase price. Consequently, if you sell your Products before their scheduled maturity (assuming you are able to), you may lose some of your original investment.
- ***Early redemption:*** The Products may be redeemed prior to their scheduled maturity in certain extraordinary circumstances and if an Autocall Event occurs. In such case, investors may only be able to reinvest the proceeds on less favourable market terms compared to when the Products were purchased.

Description of the most material conflicts of interest pertaining to the offer or the admission to trading
The BIL Group or any third party appointed by it deal in and hold interests in the Underlying(s) or in components of the Underlying(s) or in options or futures contracts relating to the Underlying(s) or components thereof in their normal course of business and from time to time may participate in transactions connected to the Products for their own account or on behalf of others. Furthermore, companies in the BIL Group or any third party appointed by it may exercise another function in relation to the Underlying(s) or components thereof, such as issuing agent, calculation agent, paying agent and/or administrative agent. Companies in the BIL Group or any third party appointed by it can also receive non-public information regarding the Underlying(s) or components of the Underlying(s), but are not obliged to pass such information on to the investors.
The selling price of the Products, where appropriate in addition to fixed issue surcharges, management fees, performance fees or other fees, may contain surcharges on the initial mathematical 'fair' value of the Products (the "**margin**"). This margin will be determined by the Issuer in its reasonable discretion and can differ from surcharges that other issuers impose on comparable products. This margin covers, among other things, the costs of structuring, market making and settlement of the Products and also includes the expected profit for the Issuer.

Diritti connessi ai Titoli

I Prodotti daranno a ciascun investitore il diritto di ricevere un importo della cedola potenziale e un rendimento, insieme ad alcuni diritti accessori, quali il diritto di ricevere la notifica di alcune determinazioni ed eventi.
L'importo della cedola potenziale e il rendimento dei Prodotti dipenderanno dall'andamento del/i Sottostante/i.

Importo della Cedola:

- Se, con riferimento ad una Data di Osservazione della Cedola, il Livello di Fixing della Cedola di ciascun Sottostante con riferimento a tale Data di Osservazione della Cedola è maggiore al Livello Trigger della Cedola con riferimento a ciascuno Sottostante in tale Data di Osservazione della Cedola (tale evento un "**Evento di Attivazione della Cedola**"), l'importo della cedola pagabile con riferimento a ciascun Prodotto alla Data di Pagamento della Cedola che cade immediatamente dopo tale Data di Osservazione della Cedola sarà determinato in base alla seguente formula:

$$\text{Importo di calcolo} \times \left[\sum_{i=n+1}^{N} \text{Tasso della Cedola}_i\right]$$

- In caso contrario, l'importo della cedola pagabile per ciascun Prodotto alla Data di Pagamento della Cedola che cade immediatamente dopo la relativa Data di Osservazione della Cedola sarà pari a zero.

Dove:

- ***Livello di Fixing della Cedola:*** con riferimento ad una Data di Osservazione della Cedola e a ciascun Sottostante, il livello ufficiale di chiusura di tale Sottostante in tale Data di Osservazione della Cedola.

- ***N:*** con riferimento alla Data di Pagamento della Cedola Rilevante, il numero della attuale Data di Pagamento della Cedola Rilevante.
- ***Tasso della Cedola:*** il Tasso della Cedola con riferimento alla Data di Pagamento della Cedola "*i*".

Legge applicabile: I Prodotti saranno disciplinati dalla legge lussemburghese e i relativi diritti saranno interpretati di conseguenza.

Status dei Prodotti: I Prodotti costituiscono obbligazioni generali dirette, non garantite e non subordinate dell'Emittente e sono di pari grado tra loro e con tutte le altre obbligazioni generali dirette, non garantite e non subordinate dell'Emittente. I Prodotti non sono prova di depositi dell'Emittente. I Prodotti non sono assicurati o garantiti de alcun governo o agenzia governativa.

Descrizione delle restrizioni alla libera trasferibilità dei Titoli

I Prodotti sono offerti e venduti al di fuori degli Stati Uniti a soggetti non statunitensi in base alla Regulation S ai sensi del Securities Act e devono rispettare le limitazioni al trasferimento applicabili con riferimento agli Stati Uniti.

Nessuna offerta, vendita, rivendita o consegna dei Prodotti può essere effettuata in o da qualsiasi giurisdizione e/o a qualsiasi individuo o entità se non in circostanze che risultino conformi alle leggi e ai regolamenti applicabili tali da non imporre alcun obbligo all'Emittente e/o Banque Internationale à Luxembourg (il "Lead Manager").

Fatto salvo quanto sopra, i Prodotti saranno liberamente trasferibili.

Dove saranno negoziati i Titoli?

Si prevede che venga presentata da parte dell'Emittente (o per suo conto) domanda di ammissione alla negoziazione dei Prodotti sul sistema multilaterale di negoziazione EuroTLX (gestito da Borsa Italiana S.p.A.) con effetto a partire da (alla o intorno alla) la Data di Emissione.

L'Emittente e il Lead Manager non si assumono alcun obbligo legale con riferimento all'ottenimento della ammissione alla negoziazione a partire da una qualsiasi determinata data o al mantenimento di qualsiasi ammissione alla negoziazione realizzata.

Quali sono i principali rischi specifici dei Titoli?

I Prodotti sono soggetti ai seguenti rischi principali:

- ***Gli investitori nei Prodotti possono perdere fino all'intero valore del loro investimento nei Prodotti, a seconda della performance del/i Sottostante/i.***
- ***Rischi relativi a determinate caratteristiche dei Prodotti***:
  - Gli investitori saranno esposti all'andamento del sottostante che ha la peggiore performance, piuttosto che al paniere nel suo complesso. Ciò significa che, indipendentemente dall'andamento degli altri Sottostanti, se il sottostante con la performance peggiore del paniere non raggiunge una soglia o una barriera rilevante per il calcolo dell'eventuale importo di rimborso, gli investitori potrebbero non ricevere un rendimento rispetto al loro investimento iniziale e potrebbero perdere una parte o la totalità del loro investimento.
  - L'importo della cedola sarà pagato solo se il livello, il prezzo o altro valore applicabile del/i Sottostante/i alla data o alle date di valutazione pertinenti raggiunge o supera una o più barriere

specifiche. È possibile che tale livello, prezzo o altro valore applicabile del/i Sottostante/i alle rilevanti date di valutazione non raggiunga o superi la barriera (a seconda dei casi) e, pertanto, nessuna cedola sarà pagabile alla data di pagamento della cedola. Ciò significa che l'importo della cedola pagabile ad un investitore nel corso della vita dei Prodotti varierà e potrebbe essere pari a zero.

- Il pagamento dell'importo della cedola sarà condizionato al valore o all'andamento del/i Sottostante/i. L'importo della cedola pagabile sarà pari a zero ad una data di pagamento della cedola se il/i Sottostante/i non mantengono un andamento conforme alle condizioni dei Prodotti, anche se tale pagamento sarà rinviato alla successiva data di pagamento della cedola. Se il/i Sottostante/i soddisfano i criteri di performance, la cedola pagabile sarà pari ad un importo per l'attuale data di pagamento della cedola più un qualsiasi importo differito dalle precedenti date di pagamento della cedola in cui la cedola non è stata pagata. Gli investitori non riceveranno il pagamento di alcuna cedola o altra indennità per il pagamento differito della cedola ed è possibile che il/i Sottostante/i non soddisfino mai i criteri di performance, il che significa che gli investitori non riceveranno alcuna cedola per tutta la durata della vita dei Prodotti.

- ***Rischi relativi al/i Sottostante/i***:
  - Le performance passate del/i Sottostante/i non sono indicative delle performance future, e le performance possono essere soggette a cambiamenti imprevedibili nel tempo;
  - Gli investitori non avranno alcun diritto di proprietà legale o beneficiaria sul/i Sottostante/i, e nessun diritto nei confronti dello sponsor dell'indice, dell'amministratore o di qualsiasi altro soggetto terzo con riferimento al/i Sottostante/i; tali parti non hanno alcun obbligo di agire nell'interesse degli investitori.
  - I valore di mercato e il rendimento dei Prodotti dipende dall'andamento del/i Sottostante/i e delle sue componenti e da altri fattori macroeconomici. Lo sponsor dell'indice (e l'Emittente dei Prodotti) può essere soggetto a modifiche normative riguardanti la pubblicazione e l'utilizzo del/i Sottostante/i durante la vita dei Prodotti che possono avere un impatto negativo sulla performance del/i Sottostante/i. L'Emittente e/o l'Agente di Calcolo possono adeguare i termini dei Prodotti con riferimento al/i Sottostante/i a cui fanno riferimento al fine di rispettare i requisiti di legge e tali adeguamenti possono influire sul valore e sul rendimento dei Prodotti e possono anche comportare il rimborso anticipato dei Prodotti (il quale importo di rimborso anticipato può essere inferiore all'importo dell'investimento iniziale o pari a zero).
  - La performance del/i Sottostante/i è influenzata da fattori macroeconomici che possono influenzare negativamente la performance del/iSottostante/i e il valore e il rendimento dei Prodotti. Inoltre, il rendimento dei Prodotti potrebbe non riflettere il rendimento che sarebbe stato ottenuto con un investimento diretto nelle quote del fondo sottostante o nel patrimonio del/iSottostante/i. Inoltre, una modifica della composizione o la cessazione del/iSottostante/i potrebbe incidere significativamente sul valore di mercato e sul rendimento dei Prodotti. Gli investitori nei Prodotti saranno inoltre esposti a fattori quali, a titolo esemplificativo e non esaustivo, il fatto che il prezzo di mercato del/iSottostante/i sia superiore o inferiore al valore patrimoniale netto del/iSottostante/i, la quota proporzionale delle commissioni associate al/i Sottostante/i, eventuali ritardi, sospensioni o imprecisioni nel calcolo e nella pubblicazione del valore patrimoniale netto, e la strategia d'investimento del/iSottostante/i, che possono influenzare il valore e il rendimento dei Prodotti potrebbero essere anch'essi influenzati da fattori.
- ***Liquidità assente o limitata:*** I Prodotti possono non avere liquidità o il mercato in cui circolano tali Prodotti può essere limitato e ciò può avere un impatto negativo sul loro valore o sulla capacità dell'Investitore di venderli.
- ***Prezzo del mercato secondario:*** Il prezzo di mercato dei Prodotti prima della scadenza può essere significativamente inferiore al loro prezzo di acquisto originale. Di conseguenza, se vendete i vostri Prodotti prima della loro scadenza prevista (supponendo che ciò sia possibile), potreste perdere parte del vostro investimento originale.
- ***Rimborso anticipato:*** I Prodotti possono essere rimborsati prima della loro scadenza prevista in alcune circostanze straordinarie e se si verifica un Evento Autocall. In tal caso, gli investitori potranno reinvestire i proventi solo a condizioni di mercato meno favorevoli rispetto a quando i Prodotti sono stati acquistati.

Il prezzo di vendita dei Prodotti, se del caso in aggiunta a sovrapprezzi di emissione fissi, commissioni di gestione, commissioni di performance o altre commissioni, può contenere sovrapprezzi sul "fair value" matematico iniziale dei Prodotti (il "**margine**"). Tale margine sarà determinato dall'Emittente a sua ragionevole discrezione e potrà differire dai sovrapprezzi che altri emittenti impongono su prodotti comparabili. Questo margine copre, tra le altre cose, i costi per la strutturazione, il market making e la liquidazione dei Prodotti e include inoltre il profitto atteso per l'Emittente.
