MiFID II product governance / Retail investors, professional investors and eligible counterparties target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities, taking into account the five (5) categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority (**ESMA**) on 3 August 2023, has led to the conclusion that the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, **MiFID II**). Any person subsequently offering, selling or recommending the Securities (a **Distributor**) should take into consideration the manufacturer's target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

UK MiFIR product governance / Retail investors, professional investors and eligible counterparties target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that the target market for the Securities is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**), and professional clients, as defined in Regulation (EU) No 600/2014, as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (**UK MiFIR**), and retail clients, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of EUWA. Any person subsequently offering, selling or recommending the Securities (a **Distributor**) should take into consideration the manufacturer's target market assessment; however, a Distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

UK PRIIPs Regulation – PROHIBITION OF SALES TO UK RETAIL INVESTORS WITHOUT KID – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**) without an updated key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (as amended, the **UK PRIIPs Regulation**) for offering or selling the Securities or otherwise making them available to retail investors in the UK. For these purposes, a retail investor means:

(a) a person who is neither (i) a client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; nor (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024 (the **POATRs**); or

Prohibition of Offer to Private Clients in Switzerland without KID - The Securities are not intended to be offered or recommended to private clients within the meaning of the Swiss Federal Financial Services Act (the **FinSA**) in Switzerland without an updated key information document according to the FinSA or any equivalent document under the FinSA in relation to the Securities. D. Principal risk factors related to the guarantor

The following risks have been identified as being significant and specific to the Guarantor and of a nature, should they materialise, to have a significant negative impact on its business activity, its financial position and its access to various sources of financing:
1) Credit and counterparty risks, which include credit risks on its corporates and financial institutions counterparties, risk on sector or individual concentration, counterparty risk on market transactions, credit risk related to securitization transactions as well as country and sovereign risks;
2) Financial risks, which include market risk, risk of change in the value of its securities portfolio, foreign exchange risk, transformation risk, liquidity risk, risk of change in the value of equity investments, and global interest rate risk;
3) Operational risks and associated risks, which include compliance and legal risks and other operational risks including information system security risks;
4) Business risks, which include systemic risk (negative impact of adverse economic and financial conditions, as well as changes in laws and regulations) or strategic risk;
5) Climate and environmental risks; and
6) Risks relating to the structure of the Crédit Agricole Group.

3.4 What are the main risks specific to securities?

There are risk factors which are material for the purpose of assessing the risks related to the Securities, including the following:
1) The trading price of the Securities may fall in value as rapidly as it may rise and Securityholders may sustain a total loss of their investment;
2) The Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Illiquidity may have an adverse effect on the market value of the Securities;
3) The implementation in France of the EU Bank Recovery and Resolution Directive could materially affect the rights of the Securityholders, the price or value of their investment in the Securities and or the ability of the Guarantor to satisfy its obligations under the Securities;
4) French insolvency law could have an adverse impact on Securityholders seeking repayment in the event that the Issuer, the Guarantor or its subsidiaries were to become insolvent and could have a material adverse effect on the market value of the Securities;
5) The risk relating to the unsecured nature of the Securities and the Guarantee, the absence of negative pledge and debt restrictions with respect to the Issuer and the Guarantor, all of which could have an adverse effect on the market value of the Securities;

6) The risks associated with the provisions of Regulation (EU) 2016/1011 (the "Benchmarks Regulation"), which may have an adverse effect on the performance of the Underlying or lead to its disappearance and as a consequence, could have an adverse effect on the value or liquidity of, and return on, the Securities;
7) The Interest Amount, Automatic Early Redemption Amount and Final Redemption Amount of the Securities are dependent upon changes in the market value of the Underlying(s), which could adversely affect the market value of the Securities. In addition, the Early Redemption Amount and Final Redemption Amount may be less than the nominal amount of the Securities and the holders of Securities may lose all or part of the amount of the principal invested;
8) An investment in the Securities does not confer any legal or beneficial interest in the Underlying(s) or any voting rights, right to receive dividends or other rights that a holder of the Underlying(s) may have. Potential losses in value of the Securities cannot be compensated by other income; and
9) The Securities are not principal protected and investors are exposed to the performance of the Underlying(s); accordingly, they risk losing all or a part of their investment if the value of the Underlying(s) does not move in a positive direction.

C. Rilievi nella relazione di revisione

Le relazioni di revisione non contengono alcun rilievo rispetto alle informazioni finanziarie storiche di Crédit Agricole CIB.

D. Principali fattori di rischio relativi al Garante

I seguenti rischi sono stati identificati come significativi e specifici per il Garante e di natura tale, qualora si concretizzassero, da avere un significativo impatto negativo sulla sua attività, sulla sua posizione finanziaria e sul suo accesso alle varie fonti di finanziamento:

1) Rischi di credito e di controparte, che includono i rischi di credito sulle sue controparti societarie e finanziarie, il rischio di concentrazione su qualsiasi settore specifico o individuale, il rischio di controparte sulle operazioni di mercato, il rischio di credito legato alle operazioni di cartolarizzazione nonché i rischi nazionali e sovrani;
2) Rischi finanziari, che includono il rischio di mercato, il rischio di variazione del valore del portafoglio titoli, il rischio di cambio, il rischio di trasformazione, il rischio di liquidità, il rischio di variazione del valore degli investimenti azionari e il rischio di tasso di interesse globale;
3) Rischi operativi e rischi connessi, che includono i rischi compliance e legale e altri rischi operativi, compresi i rischi per la sicurezza dei sistemi informativi;
4) Rischi aziendali, che includono il rischio sistemico (impatto negativo di condizioni economiche e finanziarie sfavorevoli, nonché di modifiche a leggi e regolamenti) o il rischio strategico;
5) Rischi climatici e ambientali; e
6) Rischi relativi alla struttura del Gruppo Crédit Agricole.

3.4 Quali sono i principali rischi specifici dei titoli?

Esistono fattori di rischio che sono rilevanti ai fini della valutazione dei rischi relativi ai Titoli, tra cui i seguenti:

1) Il prezzo di negoziazione dei Titoli può diminuire di valore tanto rapidamente quanto può aumentare e i Portatori dei Titoli possono subire una perdita totale del loro investimento;
2) I Titoli potrebbero non avere un mercato di negoziazione stabilito al momento dell'emissione, e uno potrebbe non svilupparsi mai. Se si sviluppa un mercato, potrebbe non essere molto liquido. L'illiquidità può avere un effetto negativo sul valore di mercato dei Titoli.
3) L'implementazione in Francia della Direttiva UE sul Risanamento e la Risoluzione delle Banche potrebbe incidere in modo rilevante sui diritti dei Portatori dei Titoli, sul prezzo o sul valore del loro investimento nei Titoli e/o la capacità del Garante di adempiere ai propri obblighi ai sensi dei Titoli;
4) La legge francese sull'insolvenza potrebbe avere un impatto negativo sui Portatori dei Titoli che cercano di ottenere pagamenti nel caso in cui l'Emittente, il Garante o le sue controllate diventassero insolventi e potrebbe avere un effetto negativo rilevante sul valore di mercato dei Titoli;
5) Il rischio relativo alla natura non garantita dei Titoli e alla Garanzia, l'assenza del divieto di costituzione di garanzie reali e di restrizioni al debito nei confronti dell'Emittente e del Garante, che potrebbero avere tutte un effetto negativo sul valore di mercato dei Titoli;
6) I rischi connessi alle disposizioni del Regolamento (UE) 2016/1011 (il "Regolamento sugli Indici di Riferimento"), che potrebbero avere un effetto negativo sulla performance del Sottostante o portare alla sua scomparsa e, di conseguenza, potrebbero avere un effetto negativo sul valore o sulla liquidità e sul rendimento dei Titoli;
7) L'Importo degli Interessi, l'Importo di Rimborso Anticipato Automatico e l'Importo di Rimborso Finale dei Titoli dipendono dalle variazioni del valore di mercato del Sottostante(i), che potrebbe incidere negativamente sul valore di mercato dei Titoli. Inoltre, l'Importo di Rimborso Anticipato e l'Importo di Rimborso Finale potrebbero essere inferiori all'importo nominale dei Titoli e i portatori dei Titoli potrebbero perdere tutto o parte dell'importo del capitale investito;
8) Un investimento nei Titoli non conferisce alcun interesse legale o beneficiario nel/i Sottostante/i né alcun diritto di voto, diritto a ricevere dividendi o altri diritti eventualmente spettanti ad un portatore del/i Sottostante/i. Possibili perdite di valore dei Titoli non possono essere compensate da altri redditi; e
9) I Titoli non godono della protezione del capitale e gli investitori sono esposti alla performance del/i Sottostante/i; di conseguenza, rischiano di perdere tutto o parte del loro investimento se il valore del/i Sottostante/i non si muove in una direzione positiva.

Le richieste possono essere presentate secondo le consuete procedure dei Collocatori. I potenziali investitori non saranno tenuti a stipulare alcun accordo contrattuale direttamente con l'Emittente o con il Dealer (come di seguito definito) in relazione alla sottoscrizione dei Titoli.

Un potenziale investitore sottoscriverà i Titoli secondo le modalità concordate con i Collocatori relativamente alla sottoscrizione di titoli in generale.

L'Emittente stima che i Titoli saranno consegnati sul rispettivo conto titoli in forma di scritture contabili dell'investitore alla o attorno alla Data di Emissione. I richiedenti saranno informati direttamente dai Collocatori dell'esito positivo della loro richiesta. Le negoziazioni dei Titoli possono iniziare alla Data di Emissione.

Se la sottoscrizione di un Titolo avviene dopo la chiusura dell'offerta, l'ordine sarà automaticamente annullato e il ricavato della sottoscrizione sarà restituito al rilevante investitore secondo le istruzioni comunicate a Crédit Agricole CIB al momento della richiesta di sottoscrizione. Le richieste di sottoscrizione di Titoli saranno ricevute entro il limite del numero di Titoli disponibili. Gli ordini di sottoscrizione dei Titoli possono essere ridotti in caso di eccesso di sottoscrizioni e gli eventuali proventi in eccesso saranno restituiti da Crédit Agricole CIB all'investitore.

Il Collocatore (come definito di seguito) riceverà il pagamento di commissioni complessive pari ad un importo massimo del 5,00% dell'importo nominale complessivo dei Titoli.

Non è previsto alcun diritto di prelazione per la sottoscrizione dei Titoli a favore di alcuna categoria di soggetti.

L'importo definitivo dell'offerta sarà comunicato dall'Emittente a ciascun investitore tramite il proprio sito web (https://www.documentation.ca-cib.com/IssuanceProgram) alla o circa alla Data di Emissione.
