10. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should

consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

Classification for U.S. Tax Purposes

We have determined that there is a material risk that the Certificates will not be treated as a debt instrument, but will rather be treated as a forward or derivative contract, for United States federal income tax purposes. In light of this possibility, we intend to treat the Certificates in the manner described under "*United States Tax Considerations −− Securities Issued by GSFCI −− Securities that are not Classified as Debt for United States Tax Purposes*" in the Base Prospectus. If the Certificates bear periodic coupons, then, due to uncertainty regarding the U.S. withholding tax treatment of coupon payments on Certificates that are not treated as debt, it is expected that withholding agents will (and we, if we are the withholding agent, intend to) withhold on coupon payments on the Certificates at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such withholding tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Certificates (other than any periodic coupons that are paid at such time) are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Certificates.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- the Calculation Amount is EUR 1,000;
- in respect of each Underlying Asset, the Asset Initial Price is its Initial Closing Price;
- in respect of each Underlying Asset and each Autocall Observation Date, the Autocall Level is 100.00% of its Asset Initial Price;
- in respect of each Underlying Asset and each Coupon Observation Date, the Coupon Barrier Level is 70.00% of its Asset Initial Price;
- the Coupon Value Multiplicand is 0.0229;
- in respect of each Underlying Asset, the Barrier Level is 65% of its Asset Initial Price; and
- the Redemption Percentage is 100.00%.

The below examples are presented for illustrative purposes only and are intended to provide information on how the return on your investment will be calculated depending upon the hypothetical performance of the Underlying Assets under a variety of scenarios. Amounts payable under the Securities will be determined in accordance with the terms and conditions of the Securities as set out above in the Contractual Terms section of these Final Terms and in the applicable conditions set forth in the Base Prospectus as supplemented. The below examples are not exhaustive of all possible scenarios.

AUTOMATIC EARLY EXERCISE AND COUPON AMOUNT

Example – Automatic Early Exercise and Coupon Amount: ***The Reference Price of each Underlying Asset for the Autocall Observation Date scheduled to fall on June 23, 2027 is greater than or equal to its Autocall Level for such Autocall Observation Date. The Coupon Value Multiplier corresponding to the Coupon Observation Date scheduled to fall on June 23, 2027 is four.***

In this Example, the Certificates will be redeemed on the Automatic Early Exercise Date immediately following such Autocall Observation Date by payment in respect of each Certificate of an amount in EUR equal to the Autocall Event Amount, i.e., EUR 1,000.00. Additionally, a Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Autocall Observation Date, and such Coupon Amount will be an amount in EUR equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.0916, *minus* (ii) the *aggregate* of the Coupon Amount(s) (if any) per Certificate previously paid on the Coupon Payment Date(s) preceding such Autocall Observation Date.

Example – no Automatic Early Exercise but Coupon Amount: ***The Reference Price of any Underlying Asset for the Autocall Observation Date scheduled to fall on June 23, 2027 is less than its Autocall Level for such Autocall Observation Date, but the Reference Price of each Underlying Asset for such Autocall Observation Date is greater than or equal to its Coupon Barrier Level. The Coupon Value Multiplier corresponding to the Coupon Observation Date scheduled to fall on June 23, 2027 is four.***

In this Example, the Certificates will not be redeemed on the Automatic Early Exercise Date immediately following such Autocall Observation Date and no Automatic Early Exercise Amount will be payable on such date. A Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Autocall Observation Date, and such Coupon Amount will be an amount in EUR equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.0916, *minus* (ii) the *aggregate* of the Coupon Amount(s) (if any) per Certificate previously paid on the Coupon Payment Date(s) preceding such Autocall Observation Date.

Example – no Automatic Early Exercise and no Coupon Amount: ***The Reference Price of any Underlying***

Asset for the Autocall Observation Date scheduled to fall on June 23, 2027 is less than its Coupon Barrier Level.

In this Example, the Certificates will not be redeemed on the Automatic Early Exercise Date immediately following such Autocall Observation Date and no Automatic Early Exercise Amount will be payable on such date. No Coupon Amount will be payable on the Coupon Payment Date immediately following such Autocall Observation Date.

SETTLEMENT AMOUNT AND FINAL COUPON AMOUNT

Example – neutral scenario and Coupon Amount: ***The Certificates have not been previously redeemed on an Automatic Early Exercise Date, and the Final Closing Price of each Underlying Asset is greater than or equal to its Coupon Barrier Level for the final Coupon Observation Date. The Coupon Value Multiplier corresponding to the final Coupon Observation Date is 12.***

In this Example, the Certificates will be redeemed on the Maturity Date and the Settlement Amount payable in respect of each Certificate will be an amount in EUR equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Redemption Percentage, i.e., EUR 1,000. Additionally, a Coupon Amount per Certificate will be payable on the Coupon Payment Date falling on the Maturity Date, and such Coupon Amount will be an amount in EUR equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.2748, *minus* (ii) the *aggregate* of the Coupon Amounts (if any) per Certificate previously paid on the Coupon Payment Dates preceding the final Coupon Observation Date.

Example – neutral scenario but no Coupon Amount: ***The Certificates have not been previously redeemed on an Automatic Early Exercise Date, the Final Closing Price of any Underlying Asset is less than its Coupon Barrier Level for the final Coupon Observation Date, and the Final Closing Price of each Underlying Asset is greater than or equal to its Barrier Level. The Coupon Value Multiplier corresponding to the final Coupon Observation Date is 12.***

In this Example, the Certificates will be redeemed on the Maturity Date and the Settlement Amount payable in respect of each Certificate will be an amount in EUR equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Redemption Percentage, i.e., EUR 1,000. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date.

Example – negative scenario and no Coupon Amount: ***The Certificates have not been previously redeemed on an Automatic Early Exercise Date, the Final Closing Price of any Underlying Asset is less than its Barrier Level, and the Final Closing Price of one Underlying Asset is 64% of its Initial Closing Price and the Final Closing Price of each other Underlying Asset is greater than or equal to 65% of its Initial Closing Price.***

In this Example, the Certificates will be redeemed on the Maturity Date and the Settlement Amount payable in respect of each Certificate will be an amount in EUR equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the Final Closing Price of the Final Worst Performing Asset, *divided* by (b) 100.00% of the Initial Closing Price of the Final Worst Performing Asset, i.e., EUR 640. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates (apart from any Coupon Amounts paid prior to the Maturity Date).**

Example – negative scenario and no Coupon Amount: ***The Certificates have not been previously redeemed on an Automatic Early Exercise Date, the Final Closing Price of any Underlying Asset is less than its Barrier Level, and the Final Closing Price of one Underlying Asset is 0% of its Initial Closing Price and the Final Closing Price of each other Underlying Asset is greater than or equal to 65% of its Initial Closing Price.***

In this Example, the Certificates will be redeemed on the Maturity Date and the Settlement Amount payable in

respect of each Certificate will be an amount in EUR equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the Final Closing Price of the Final Worst Performing Asset, *divided* by (b) 100.00% of the Initial Closing Price of the Final Worst Performing Asset, i.e., zero. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a total loss of the amount invested in the Certificates (apart from any Coupon Amounts paid prior to the Maturity Date).**

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer and the Guarantor. The Securities are the Issuer's unsecured obligations and the Guarantee is the Guarantor's unsecured obligation. Investors are dependent on the Issuer's and Guarantor's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's and Guarantor's credit risk and to changes in the market's view of the Issuer's and Guarantor's creditworthiness. Neither the Securities nor the Guarantee are bank deposits, and neither are insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's and the Guarantor's credit risk and to changes in the market's view of the Issuer's and the Guarantor's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's and the Guarantor's ability to fulfil their obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- GSFCI is a wholly-owned subsidiary of the Goldman Sachs group. GSFCI is primarily involved in issuing securities, lending and entering into derivatives transactions with its affiliates for hedging purposes, and does not carry out any other operating business activities. As a result, GSFCI does not have a significant amount of share capital. Investors are exposed to a significantly greater credit risk by purchasing the Securities where GSFCI is the Issuer than they would be by purchasing securities from an issuer equipped with significantly more capital. If GSFCI becomes insolvent, investors may lose some or all of the amount invested.

Risk factors associated with the Guarantor:

- GSG is the parent holding company of the group of companies comprising Goldman Sachs. Goldman Sachs is a leading global investment banking, securities and investment management firm that faces a variety of significant risks which may affect GSG's ability to fulfil its obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- Investors are exposed to the credit risk of GSG and its subsidiaries since the assets of GSG consist principally of interests in its subsidiaries. GSG's right as a shareholder to benefit in any distribution of assets of any of its subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. As a result, investors' ability to benefit from any distribution of assets of any of GSG's subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. Any liquidation or otherwise of a subsidiary of GSG may result in GSG being liable for the subsidiary's obligations which could reduce its assets that are available to satisfy its obligations under the guarantee.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

- Depending on the performance of the Underlying Assets, you may lose some or all of your investment.
- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero.

Risks relating to certain features of the Securities:

- As the terms and conditions of your Securities provide that the Securities are subject to a cap, your ability to participate in any change in the value of the Underlying Assets over the term of the Securities will be limited, no matter how much the level or price of the Underlying Assets may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Assets directly.
- The terms and conditions of your Securities provide that the return on the Securities depends on the "worst-of" performance of the basket of Underlying Assets. Therefore, you will be exposed to the performance of each Underlying Asset and, in particular, to the Underlying Asset which has the worst performance. This means that, irrespective of how the other Underlying Assets perform, if any one or more Underlying Assets fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, you may receive no interest payments and/or could lose some or all of your initial investment.

Risks relating to the Underlying Assets:

- *The value of and return on your Securities depends on the performance of the Underlying Assets.* The return on your Securities depends on the performance of the Underlying Assets. The level or price of an Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events,

including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the level or price of an Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.

- *Past performance of an Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of an Underlying Asset as indicative of the range of, or trends in, fluctuations in such Underlying Asset that may occur in the future. An Underlying Asset may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- *Risks relating to equity indices:* Equity indices are comprised of a synthetic portfolio of shares, and as such, the performance of an Index is dependent upon the macroeconomic factors relating to the shares that underlie such Index, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as the index composition, which may change over time.

Who is the offeror and/or the person asking for admission to trading?

Why is this Prospectus being produced?
Reasons for the offer or for the admission to trading on a regulated market, estimated net proceeds and use of proceeds: The net proceeds of the offer will be used by the Issuer to provide additional funds for its operations and for other general corporate purposes (i.e., for making profit and/or hedging certain risks).
Underwriting agreement on a firm commitment basis: The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis.
Material conflicts pertaining to the issue/offer: Fees shall be payable to the Authorised Offeror by the Issuer or its affiliate. The Issuer is subject to a number of conflicts of interest between its own interests and those of holders of Securities, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account, may act as a member of a market determination committee and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the Underlying Assets or any derivative instruments referencing them, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

Il pagamento di qualsiasi importo dovuto sugli Strumenti Finanziari è soggetto al rischio di credito dell'Emittente e del Garante. Gli Strumenti Finanziari sono obbligazioni non garantite dell'Emittente e la Garanzia è un'obbligazione non garantita del Garante. Gli investitori dipendono dalla capacità dell'Emittente e del Garante di versare tutti gli importi dovuti sugli Strumenti Finanziari, e pertanto gli investitori sono soggetti al rischio di credito dell'Emittente e del Garante e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente e del Garante. Né gli Strumenti Finanziari né la Garanzia costituiscono depositi bancari, e non sono assicurati o garantiti da alcuno schema di protezione di compensazione o deposito. Il valore e il rendimento sugli Strumenti Finanziari saranno soggetti al rischio di credito dell'Emittente e del Garante e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente e del Garante.

GSG e le sue controllate consolidate ("**Goldman Sachs**") costituiscono un gruppo leader mondiale nell'*investment banking*, negli strumenti finanziari e gestione degli investimenti e fanno fronte ad una varietà di rischi significativi che potrebbero pregiudicare la capacità dell'Emittente e del Garante di adempiere ai propri obblighi relativi agli Strumenti Finanziari, inclusi i rischi di mercato, rischi di liquidità, rischi di credito, rischi operativi, rischi legali e regolamentari, rischi di concorrenza e sviluppi di mercato e rischi generali del contesto aziendale.

GSFCI è una controllata al 100% del gruppo Goldman Sachs. GSFCI si occupa principalmente dell'emissione di strumenti finanziari, del prestito e della stipula di contratti derivati con le sue società controllate, collegate o sottoposte a comune controllo a scopo di copertura e non svolge altre attività operative. Di conseguenza, GSFCI non dispone di un capitale sociale di rilevante entità. Gli investitori sono esposti a un rischio di credito significativamente maggiore acquistando gli Strumenti Finanziari in cui GSFCI è l'Emittente di quanto lo sarebbero acquistando titoli da un emittente dotato di un capitale significativamente maggiore. Se GSFCI diventa insolvente, gli investitori possono perdere una parte o la totalità dell'importo investito.

Rimborso Anticipato Non Programmato: Gli Strumenti Finanziari potranno essere rimborsati prima della scadenza programmata: (i) a opzione dell'Emittente (a) qualora l'Emittente determini che un cambiamento della legge applicabile abbia l'effetto di rendere la prestazione dell'Emittente o delle sue società controllate, collegate o sottoposte a comune controllo ai sensi degli Strumenti Finanziari o gli accordi di copertura relativi agli Strumenti Finanziari, illegali o eccessivamente onerosi (in tutto o in parte) (o vi sia una sostanziale probabilità che lo diventino nell'immediato futuro), o (b) se del caso, qualora l'agente di calcolo determini che taluni eventi di turbativa aggiuntivi o eventi di rettifica come previsti nei termini e nelle condizioni degli Strumenti Finanziari si siano verificati; o (ii) in virtù di comunicazione da parte di un detentore che dichiari gli Strumenti Finanziari immediatamente esigibili a causa del verificarsi di un evento di default che sia ancora in corso.

***Riserve nella relazione di revisione sulle informazioni finanziarie storiche**:* Non applicabile; nella relazione di revisione di GSG sulle informazioni finanziarie relative agli esercizi passati non sono presenti riserve.

Fattori di rischio associati al Garante:

GSG è la holding del gruppo di società che comprende Goldman Sachs. Goldman Sachs è una società leader a livello mondiale nel settore dell'investment banking, dei titoli e della gestione degli investimenti, che si trova ad affrontare una serie di rischi significativi che possono influire sulla capacità di GSG di adempiere ai propri obblighi in materia di titoli, inclusi i rischi di mercato, rischi di liquidità, rischi di credito, rischi operativi, rischi legali e regolamentari, rischi di concorrenza e sviluppi di mercato e rischi generali del contesto aziendale.

Gli investitori sono esposti al rischio di credito della GSG e delle sue controllate in quanto il patrimonio della GSG è costituito principalmente da partecipazioni nelle sue controllate. Il diritto di GSG, in qualità di azionista, di beneficiare di qualsiasi distribuzione del patrimonio di una delle sue controllate in caso di liquidazione della controllata o in altro modo è subordinato ai creditori delle controllate di GSG. Di conseguenza, la capacità degli investitori di trarre vantaggio da qualsiasi distribuzione di attività di una qualsiasi delle controllate di GSG al momento della liquidazione della controllata o in altro modo è subordinata ai creditori delle controllate di GSG. La liquidazione o meno di una controllata della GSG può comportare la responsabilità della GSG per gli obblighi della controllata, il che potrebbe ridurre i suoi attivi disponibili per soddisfare gli obblighi derivanti dalla garanzia.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

A seconda dell'andamento delle Attività Sottostanti, Voi potreste perdere parte o tutto il tuo investimento.

Il prezzo di mercato degli Strumenti Finanziari prima della scadenza può essere significativamente inferiore al prezzo di acquisto pagato. Di conseguenza, se vendete i Vostri Strumenti Finanziari prima della data di regolamento prevista, potreste ricevere molto meno dell'importo investito inizialmente.

I Vostri Strumenti Finanziari possono essere regolati in determinate circostanze straordinarie indicate nelle condizioni degli Strumenti Finanziari prima della scadenza prevista e, in tal caso, l'importo di regolamento anticipato pagato a Voi potrebbe essere inferiore all'importo che avete pagato per gli Strumenti Finanziari e potrebbe essere pari a zero.

Rischi relativi ad alcune caratteristiche degli Strumenti Finanziari:

Poiché i termini e le condizioni dei Vostri Strumenti Finanziari prevedono che essi siano soggetti a un tetto massimo (*cap*). Di conseguenza, la Vostra possibilità di beneficiare di eventuali variazioni nel valore delle Attività Sottostanti durante la durata degli Strumenti Finanziari sarà limitata, indipendentemente da quanto il livello o il prezzo delle Attività Sottostanti possa aumentare oltre il livello del *cap* nel corso della vita degli Strumenti Finanziari. Pertanto, il rendimento dei Vostri Strumenti Finanziari potrebbe essere significativamente inferiore rispetto a quello che avreste ottenuto acquistando direttamente l'Attività Sottostante(i).

I termini e le condizioni dei vostri Strumenti Finanziari possono prevedere che il rendimento degli Strumenti Finanziari sarà basato sul rendimento "worst-of" del paniere di Attività Sottostanti. Pertanto, Voi sarete esposti al rendimento di ciascuna Attività Sottostante e, in particolare, all'Attività Sottostante con il rendimento peggiore. Ciò significa che, indipendentemente da come si comportano le altre Attività Sottostanti, se una o più attività Sottostanti non raggiungono una soglia o una barriera rilevante per il calcolo di qualsiasi importo di regolamento, potreste perdere parte o tutto il Vostro investimento iniziale.

Rischi relativi alle Attività Sottostanti:

Il valore ed il rendimento dei Vostri Strumenti Finanziari dipendono dall'andamento delle Attività Sottostanti. Il rendimento dei Vostri Strumenti Finanziari dipende dall'andamento delle Attività Sottostanti. Il livello o il prezzo di un'Attività Sottostante può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità di un'Attività Sottostante può essere condizionata da eventi nazionali ed internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del livello o del prezzo di un'Attività Sottostante, anche se un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.

L'andamento passato di un'Attività Sottostante non è indicativo dell'andamento futuro. Non dovete considerare informazioni relative all'andamento passato di un'Attività Sottostante come indicative del *range*, delle tendenze, o di fluttuazioni di tale Attività Sottostante che possano verificarsi in futuro. Un'Attività Sottostante può avere un andamento diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.

Rischi relativi agli indici azionari: Gli indici azionari sono composti da un portafoglio sintetico di azioni e, di conseguenza, la performance di un Indice dipende dai fattori macroeconomici relativi alle azioni sottostanti tale Indice, quali i livelli dei tassi di interesse e dei prezzi sui mercati dei capitali, l'andamento delle valute, fattori politici, nonché fattori specifici delle singole società come la situazione degli utili, la posizione di mercato, la situazione di rischio, la struttura azionaria e la politica di distribuzione, oltre alla composizione dell'indice stesso, che può variare nel tempo.

Gli Investitori possono presentare domanda di sottoscrizione degli Strumenti Finanziari nella Giurisdizione dell'Offerta al Pubblico durante il normale orario di apertura delle banche in Italia presso le filiali dell'Offerente Autorizzato dal 3 giugno 2026 (compreso) al 23 giugno 2026 (compreso), salvo chiusura anticipata o estensione del Periodo di Offerta.

Gli Strumenti Finanziari potranno essere collocati nella Giurisdizione dell'Offerta al Pubblico in luogo diverso dalla sede legale o dalle dipendenze degli Offerenti Autorizzati (c.d. "***offerta fuori sede***") mediante consulenti finanziari abilitati all'offerta fuori sede, ai sensi dell'articolo 30 del D. Lgs. n. 58 del 24 febbraio 1998, come modificato (il "**Testo Unico della Finanza**"), dal 3 giugno 2026 (compreso) fino al 23 giugno 2026 (compreso), salvo chiusura anticipata o estensione del Periodo di Offerta.

Ai sensi dell'articolo 30, comma 6, del Testo Unico della Finanza, gli effetti delle sottoscrizioni effettuate "fuori sede" sono sospesi per un periodo di sette giorni a partire dalla data di sottoscrizione. In tale periodo, gli investitori hanno diritto di recedere dalla sottoscrizione senza sostenere alcuna spesa o corrispettivo, dandone avviso direttamente al collocatore di riferimento.

Gli Strumenti Finanziari possono inoltre essere collocati nella Giurisdizione dell'Offerta al Pubblico mediante tecniche di comunicazione a distanza in conformità all'articolo 32 del Testo Unico della Finanza dal 3 giugno 2026 (compreso) fino al 23 giugno 2026 (compreso), salvo chiusura anticipata o estensione del Periodo di Offerta. In questo caso, gli investitori potranno sottoscrivere gli Strumenti Finanziari, dopo essere stati identificati dal collocatore di riferimento, utilizzando la propria password/codice identificativo personale.

Nel caso in cui i Certificati siano collocati nella Giurisdizione dell'Offerta Pubblica mediante tecniche di comunicazione a distanza ai sensi dell'articolo 32 del Testo Unico della Finanza, la validità e l'efficacia dei contratti conclusi tra l'investitore e il relativo collocatore sono sospese per un periodo di quattordici giorni dalla data di sottoscrizione, ai sensi dell'articolo 67-duodecies del D. Lgs. 206/2005, come modificato (il c.d. "**Codice del Consumo**"), e, con effetto dal 19 giugno 2026, ai sensi dell'articolo 59-octies del Codice del Consumo. Entro tale periodo, gli investitori possono comunicare il proprio recesso al relativo collocatore senza sostenere alcuna spesa o commissione, in conformità alle disposizioni del Codice del Consumo (incluso, se applicabile, l'articolo 54-bis del Codice del Consumo).
